Integer Word Practice

- 1) Chester Spender the Cheese-Maker hits the mall with an attitude and an open wallet. He spends \$27 on a pair of jeans, \$12 for some socks, \$35 for a shirt and \$22 on a tie. If he started the day with \$100, will he still have enough money left over to buy a \$5 turkey sandwich for lunch after all his other purchases?

- 2) JZ is promoting a concert. He makes 200 copies of a flyer for the concert. The manager passes out 30 fliers. The bodyguard passes out 55 fliers. The lead producer passes out 40 fliers. How many fliers are left for the lead singer to pass out?

- 3) At the World's Smallest Pie Eating Festival, there were only 2 contestants. The first contestant ate 15 pies. The second contestant ate 17 pies. If there were 50 pies to begin with, how many are left?

Name: _____

Class: _____

Date: _____

- 4) Josie Dean has a slight credit card problem. She has a bank balance of \$500. If she spends \$325 on one credit card and \$450 a piece on two other credit cards, what will her bank balance be?

- 5) Roger Gilepski's doorknob collection contains 325 doorknobs. If he gives away 50 doorknobs to his brother Harris, how many doorknobs does Harris have?

- 6) Jane has 5 dollars less than Jim. Jim has 10 dollars less than Elizabeth, who has 145 dollars. If Lisa has three dollars less than Jane, how many dollars does Lisa have?
